PROFESSIONAL SUMMARY

Versatile professional with **4+ years of experience** across **Quality Assurance, Digital Marketing, SEO, E-commerce, Supply Research, and Management Operations**. Experienced in ensuring software quality through functional, regression, integration, and UI/UX testing for web and mobile applications, while also supporting project coordination and day-to-day management activities.

Strong background in **SEO, website optimization, market and supplier research, Amazon FBA, and digital marketing**, with hands-on experience in research, data analysis, reporting, and business support. Skilled at collaborating with cross-functional teams, identifying issues, improving processes, and communicating effectively with technical and non-technical stakeholders.

PROFESSIONAL EXPERIENCE

Astitva Lab — Australia

QA Engineer & Management Operations
February 2026 – Present

- Perform functional, regression, integration, system, and UI/UX testing for web and mobile applications.
- Create and execute test cases, test scenarios, test plans, and test checklists based on business and technical requirements.
- Identify, document, prioritize, and track software defects throughout the development lifecycle.
- Conduct end-to-end testing across multiple devices, browsers, platforms, and environments.
- Review business requirements, user flows, and Figma designs to identify functional, usability, and UI/UX issues before and during development.

- Collaborate closely with developers, designers, product managers, and stakeholders to investigate and resolve issues.
- Perform exploratory testing to identify edge cases and potential usability or functional problems.
- Monitor testing progress and ensure assigned QA activities are completed according to project priorities and deadlines.
- Coordinate with team members to track tasks, project progress, deliverables, and pending issues.
- Participate in requirement discussions, sprint planning, project meetings, and review sessions.
- Prepare QA reports, testing summaries, defect reports, daily updates, and project status reports for management.
- Support management activities including team coordination, recruitment, interview scheduling, onboarding, and day-to-day operational tasks.
- Assist in improving QA processes, testing documentation, team workflows, and overall product delivery quality.

Area71 — Dhaka, Bangladesh

Supply Research Executive
June 2025 – January 2026

- Conducted market and supplier research to identify potential suppliers, products, and sourcing opportunities.
- Researched supplier pricing, product availability, product quality, lead times, and delivery capabilities.
- Collected, analyzed, and maintained supplier and market data to support business decisions.
- Compared suppliers based on pricing, quality, reliability, product availability, and service performance.
- Communicated with suppliers to collect product information, quotations, specifications, and availability.
- Identified new suppliers and potential sourcing opportunities based on business requirements.
- Monitored market trends, pricing changes, product demand, and competitive developments.
- Prepared research reports and summarized findings for management review and decision-making.

- Maintained organized records of suppliers, quotations, product information, and research findings.
- Supported the team in evaluating sourcing options and identifying cost-effective supply opportunities.

Rokify — Uttara, Dhaka

SEO Executive
September 2022 – February 2025

- Conducted comprehensive keyword research to identify relevant search opportunities and improve organic visibility.
- Implemented on-page and off-page SEO strategies to improve search engine rankings and website performance.
- Optimized website content, meta titles, meta descriptions, headings, URLs, and internal linking structures.
- Conducted technical SEO audits and provided recommendations to improve website crawlability, indexing, and overall performance.
- Developed and executed link-building strategies to strengthen domain authority and organic search performance.
- Monitored website traffic, keyword rankings, and SEO performance using Google Analytics and Google Search Console.
- Prepared regular SEO performance reports and presented actionable insights to stakeholders.
- Collaborated with content writers and development teams to implement SEO best practices.
- Conducted competitor and industry research to identify SEO opportunities and emerging trends.
- Kept up to date with search engine algorithm updates, SEO trends, and industry best practices.
